PIC2	Bibliography research																																																																																								
	State of the art																																																																																								
	PIC2 end																																																																																								
	Presentation of the work																																																																																								
	Erasmus exam season																																																																																								
	Matlab simulations																																																																																								
Validation	Proto board assembly																																																																																								
	Test and validation																																																																																								
	Redesign & Simulations																																																																																								
	Proto board corrections																																																																																								
	Test and validation																																																																																								
PCB Design	PCB schematic																																																																																								
	PCB layout																																																																																								
	PCB order																																																																																								
	PCB assembly																																																																																								
PCB Validation	Firmware development																																																																																								
	Setting up the testbench																																																																																								
	Hardware test																																																																																								
	GUI development																																																																																								
	Optimizations																																																																																								
Thesis	Analysis of final results																																																																																								
	Write Disertation																																																																																								
	Disertation end
